

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CONTENTS.

PART I.

	Page.
List of land stations arranged alphabetically by name (usually the name of the city or town), including commercial stations, special stations, stations of the Army and Navy, and all stations other than restricted or general amateur, giving the following information: Call signal, wave lengths, nature of service, hours of operation, and by whom station is controlled...	10
List of all ship stations, including merchant vessels, yachts, vessels of the Army, Navy, and Revenue-Cutter Service, arranged alphabetically by the name of the ship, and giving the following information: Call letters, wave lengths, nature of service, owner of vessel (line), and by whom station is controlled.....	20
List of all United States call signals arranged alphabetically, each followed by the name of the ship or land station to which the call has been assigned..	61

PART II.

List of amateur stations licensed up to June 30, 1913, arranged according to radio districts, with the headquarters and territorial limits of each district. The first section of the list of stations for each district gives the names of owners in alphabetical order, followed by the second section giving a list of call signals in alphabetical order. The first sections give the following information: Call signal, owner of station, location of station, power in watts.....	88
--	----

DISTRICTS (HEADQUARTERS IN PARENTHESES).

First (Boston, Mass.).....	88
Second (New York, N. Y.).....	95
Third (Baltimore, Md.).....	110
Fourth (Savannah, Ga.).....	121
Fifth (New Orleans, La.).....	123
Sixth (San Francisco, Cal.).....	124
Seventh (Seattle, Wash.).....	138
Eighth (Cleveland, Ohio).....	141
Ninth (Chicago, Ill.).....	146

NOTES.

Underscoring of normal wave lengths is indicated by the use of italics.

Government vessels showing "nature of service" to be PR, O, or PG, O, will accept or transmit paid messages for officers or members of crews.

Government vessels proceeding singly may relay messages to the coast upon request. The regular ship rate will apply.

INTERNATIONAL ABBREVIATIONS USED IN THIS LIST.

Nature of service.—PG, general public; PR, limited public; P, Private (limited commercial); O, Government.

Hours of operation.—N, continuous; X, no regular hours.

Classification.—b, ship station; c, land station.

RADIO STATIONS OF THE UNITED STATES.

INTRODUCTION.

This list, including land and ship stations, is published in accordance with Section I of an act of Congress entitled "An act to regulate radio communication," approved August 13, 1912.

The following instructions concerning radio call letters are issued for the information of those concerned:

1. Section 7 of the act of August 13, 1912, to regulate radio communication provides:

SEC. 7. That a person, company, or corporation within the jurisdiction of the United States shall not knowingly utter or transmit, or cause to be uttered or transmitted, any false or fraudulent distress signal or call or false or fraudulent signal, call, or other radiogram of any kind. The penalty for so uttering or transmitting a false or fraudulent distress signal or call shall be a fine of not more than two thousand five hundred dollars or imprisonment for not more than five years, or both, in the discretion of the court, for each and every such offense, and the penalty for so uttering or transmitting, or causing to be uttered or transmitted, any other false or fraudulent signal, call, or other radiogram shall be a fine of not more than one thousand dollars or imprisonment for not more than two years, or both, in the discretion of the court, for each and every such offense.

2. The Service Regulations of the International Radiotelegraphic Conventions provide that the call letters of stations in the international system must each be formed of a group of three letters which shall be distinguishable from one another. The London International Radiotelegraphic Conference made a partial allotment of call letters among nations which signed the convention and the International Bureau at Berne, with the consent of such nations, has modified and added to this assignment of call letters by circular of April 23, 1913. The distribution of call letters among nations thus authorized is printed on the page following for the guidance of operators of all stations, ship and shore, of the United States.

A.....All to Germany and protectorates.	ONA to OTZ...Belgium and colonies.
B.....All to Great Britain.	OUA to OZZ...Denmark.
CAA to CMZ...Not yet assigned.	PAA to PIZ...Netherlands.
CNA to CNZ...Morocco.	PJA to PJM...Curaçao (Dutch).
COA to CPZ...Chile.	PJN to PJC...Surinam (Dutch).
CQA to CQZ...Monaco.	PKA to PMZ...Dutch East Indies.
CRA to CTZ...Portugal and colonies.	PNA to PZZ...Not yet assigned.
CUA to CUZ...Not yet assigned.	Q.....Reserved for code abbreviations.
CVA to CVZ...Roumania.	R.....All to Russia.
CWA to CWZ...Uruguay.	SAA to SMZ...Sweden.
CXA to CZZ...Not yet assigned.	SNA to STZ...Brazil.
D.....All to Germany and protectorates.	SUA to SUZ...Egypt.
EAA to EGZ...Spain and colonies.	SVA to SZZ...Greece.
EHA to EZZ...Not yet assigned.	TAA to TMZ...Turkey.
F.....All to France and colonies.	TNA to TZZ...Not yet assigned.
G.....All to Great Britain.	UAA to UMZ...France and colonies.
HAA to HFZ...Austria-Hungary and Bosnia-Herzegovina.	UNA to UZZ...Austria-Hungary and Bosnia-Herzegovina.
HGA to HHZ...Siam.	VAA to VGZ...Canada (British).
HIA to HZZ...Not yet assigned.	VHA to VKZ...Australian Federation (British).
I.....All to Italy and colonies.	VLA to VMZ...New Zealand (British).
J.....All to Japan and possessions.	VNA to VNZ...South African Union (British).
KAA to KCZ...Germany and protectorates.	VOA to VOZ...Newfoundland (British).
KDA to KZZ...United States.	VPA to VSZ...British colonies not autonomous.
LAA to LHZ...Norway.	VTa to VWZ...British India.
LIA to LRZ...Argentine Republic.	VXA to VZZ...Not yet assigned.
LSA to LWZ...Not yet assigned.	W.....All to the United States.
LXA to LZZ...Bulgaria.	XAA to XCZ...Mexico.
M.....All to Great Britain.	XDA to XZZ...Not yet assigned.
N.....All to the United States.	YAA to YZZ...Not yet assigned.
OAA to OFZ...Not yet assigned.	ZAA to ZZZ...Not yet assigned.
OGA to OMZ...Austria-Hungary and Bosnia-Herzegovina.	

PUBLIC-SERVICE STATIONS.

3. The call letters assigned to the United States are all combinations (676) beginning with the letter N and all (676) beginning with the letter W and all combinations (598) from KDA to KZZ, inclusive. The total number of international call letters assigned to the United States is thus 1,950 and these are reserved for Government stations and stations open to public and limited commercial service.

(a) All combinations beginning with the letter N are reserved for Government stations and in addition the combinations from WUA to WVZ and WXA to WZZ are reserved for stations of the Army of the United States.

(b) The combinations KDA to KZZ, with a few exceptions, are reserved for ship and coast stations on the Atlantic coast and Gulf of Mexico.

(c) The combinations beginning with W (except WUA to WVZ and WXA to WZZ as already indicated) are reserved, with a few exceptions, for ship and coast stations on the Pacific coast and on the Great Lakes.

AMATEUR STATIONS.

4. The call letters for amateur stations in the United States will be awarded by radio inspectors, each for his own district, respectively, according to the following system:

(a) The call will consist of three items; number of radio district; followed by two letters of the alphabet. Thus, the call of all amateur stations in New England (which comprises the first district) will be the figure "one" in Continental Morse, followed by two letters; in California (in the sixth district) the figure "six" followed by two letters; in South Carolina the figure "four" followed by two letters; in Missouri the figure "nine" followed by two letters, etc. The letters X, Y, Z, must not be used as the first of the two letters.

The territory of each district is as follows:

1. BOSTON, MASS.....Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut.
2. NEW YORK, N. Y.....New York (county of New York, Staten Island, Long Island, and counties on the Hudson River to and including Albany, Rensselaer, and Schenectady), and New Jersey (counties of Bergen, Passaic, Essex, Union, Middlesex, Monmouth, Hudson, and Ocean).
3. BALTIMORE, MD.....New Jersey (all counties not included in second district), Pennsylvania (counties of Philadelphia, Delaware, all counties south of the Blue Mountains, and Franklin County), Delaware, Maryland, Virginia, District of Columbia.
4. SAVANNAH, GA.....North Carolina, South Carolina, Georgia, Florida, Porto Rico.
5. NEW ORLEANS, LA....Alabama, Mississippi, Louisiana, Texas, Tennessee, Arkansas, Oklahoma, New Mexico.
6. SAN FRANCISCO, CAL..California, Hawaii, Nevada, Utah, Arizona.
7. SEATTLE, WASH.....Oregon, Washington, Alaska, Idaho, Montana, Wyoming.
8. CLEVELAND, OHIO....New York (all counties not included in second district), Pennsylvania (all counties not included in third district), West Virginia, Ohio, Michigan (Lower Peninsula).
9. CHICAGO, ILL.....Indiana, Illinois, Wisconsin, Michigan (Upper Peninsula), Minnesota, Kentucky, Missouri, Kansas, Colorado, Iowa, Nebraska, South Dakota, North Dakota.

(b) The three items, a given figure first, followed by two letters of the alphabet, thus may be combined in 598 different calls, which will probably suffice for the amateur sending stations in most districts for some time to come.

(c) Radio inspectors will insert amateur station calls in station licenses according to this system, and will keep a permanent chart, of 598 squares, lettered with the alphabet from left to right and from top to bottom (A to W), inserting in the appropriate square the serial license number of the station to which the call letters were awarded. Within these limitations radio inspectors will use their discretion in the award of calls, avoiding, of course, duplications.

(d) When a station is abandoned and the license canceled, or if a license shall be forfeited for violation of law, the call assigned to it may be allotted to another station.

(e) If the entire 598 calls have been exhausted, radio inspectors will issue additional calls, consisting of the figure of the district followed by three letters. From such combinations should be excluded the combinations SOS and PRB, all three-letter combinations beginning with QR or QS, all combinations involving the repetition of the same letter three times, three-letter combinations beginning with K, N, W, X, Y, Z, and other combinations, which, for various reasons, international, national, local, or individual, may be objectionable. With such exclusions, over 10,000 calls will remain for each district.

LIMITED COMMERCIAL STATIONS.

5. Calls for limited commercial land stations will be allotted by the Bureau of Navigation in a special manner to indicate, if practicable, the different radio districts over which such stations usually radiate messages, as well as to identify the stations.

SPECIAL CLASSES OF STATIONS.

6. Calls for special classes of stations, such as experiment stations for the development of radio communication, technical and training school stations, and special amateur stations will be allotted by the Bureau of Navigation.

The call will consist of three items, the number of the radio district, followed by two letters of the alphabet. The first letter will be: X, for experiment stations; Y, technical and training schools; Z, special amateur stations.

Twenty-six different combinations for each class in each district, of course, are possible. If more should prove necessary for any class in any district, a third letter will be added to the call.

RADIO STATIONS OF THE WORLD.

The International List of Radio Stations of the World, third edition, English, is adopted as the official list. This list will include the stations of the United States, excepting amateurs, and contain additional information, such as geographical location, normal range in nautical miles, radio system, and rates.

Persons desiring this list should communicate direct with the International Bureau of the Telegraphic Union (Radiotelegraphic Service), Berne, Switzerland. The price will be 60 cents per copy, not including postage. The rates of postage will be as follows: One copy, 24 cents; two copies, 32 cents; three copies, 48 cents. A subscription of 80 cents additional secures all supplements (postpaid) as issued from time to time until the next international list is published in the autumn of 1914. The stations of the United States will be printed in the first supplement.

Applications for the international list of call letters (stations of the world) should also be addressed to the International Bureau at Berne.

E. T. CHAMBERLAIN,
Commissioner of Navigation.

Approved:

EDWIN F. SWEET,
Assistant Secretary.

PART I.

LAND RADIO STATIONS, ALPHABETICALLY BY NAMES OF STATIONS.

[This list includes commercial, special, Army, Navy, and all other land stations except restricted and general amateur. The special land stations are grouped at the end of this list.]

Name.	Call signal.	Wave lengths.	Nature of service.	Hours of operation.	Station controlled by—
Annapolis, Md.....	NAK	600.....	O.....	8 a. m. to 10 p. m.	U. S. Navy.

CONTENTS.

PART I.

	Page.
List of land stations arranged alphabetically by name (usually the name of the city or town), including commercial stations, special stations, stations of the Army and Navy, and all stations other than restricted or general amateur, giving the following information: Call signals, wave lengths, nature of service, hours of operation, and by whom station is controlled....	10
List of ship stations, including merchant vessels, yachts, vessels of the Army, Navy, and Revenue-Cutter Service, arranged alphabetically by the name of the ship, and giving the following information: Call letters, wave lengths, nature of service, owner of vessel (line), and by whom station is controlled..	22
List of all United States call signals (other than general and restricted amateur) arranged alphabetically, each followed by the name of the ship or land station to which the call has been assigned	55

PART II.

List of amateur stations licensed up to June 30, 1914, arranged according to radio districts, with the headquarters and territorial limits of each district. The first section of the list of stations for each district gives the names of owners in alphabetical order, followed by the second section giving a list of call signals in alphabetical order. The first sections give the following information: Call signal, owner of station, location of station, power in watts..

DISTRICTS (HEADQUARTERS IN PARENTHESES).

First (Boston, Mass.).....	80
Second (New York, N. Y.).....	90
Third (Baltimore, Md.).....	103
Fourth (Savannah, Ga.).....	117
Fifth (New Orleans, La.).....	119
Sixth (San Francisco, Cal.).....	120
Seventh (Seattle, Wash.).....	135
Eighth (Cleveland, Ohio).....	138
Ninth (Chicago, Ill.).....	150

NOTES.

Underscoring of normal wave lengths is indicated by the use of italics.

Government vessels showing "nature of service" to be PG will accept or transmit paid messages for officers or members of crews.

Government vessels proceeding singly may relay messages to the coast upon request. The regular ship rate will apply.

INTERNATIONAL ABBREVIATIONS USED IN THIS LIST.

Nature of service:

PG=General public.

PR=Limited public.

P=Private (limited commercial and special).

O=Government business exclusively.

Hours of operation:

N=Continuous service.

X=No regular hours.

Classification:

b=Ship station.

c=Land station.

OTHER ABBREVIATIONS.

Assn.=Association.

Corp.=Corporation.

Nav.=Navigation.

Transp.=Transportation.

Marconi Co.=Marconi Wireless Telegraph Co. of America.

U. S. R. C. S.=United States Revenue-Cutter Service.

D., L. & W. R. R. Co.=Delaware, Lackawanna & Western Railroad Co.

RADIO STATIONS OF THE UNITED STATES.

INTRODUCTION.

This list, including land and ship stations, is published in accordance with Section I of an act of Congress entitled "An act to regulate radio communication," approved August 13, 1912.

The following instructions concerning radio call letters are issued for the information of those concerned:

1. Section 7 of the act of August 13, 1912, to regulate radio communication provides:

Sec. 7. That a person, company, or corporation within the jurisdiction of the United States shall not knowingly utter or transmit, or cause to be uttered or transmitted, any false or fraudulent distress signal or call or false or fraudulent signal, call, or other radiogram of any kind. The penalty for so uttering or transmitting a false or fraudulent distress signal or call shall be a fine of not more than two thousand five hundred dollars or imprisonment for not more than five years, or both, in the discretion of the court, for each and every such offense, and the penalty for so uttering or transmitting, or causing to be uttered or transmitted, any other false or fraudulent signal, call, or other radiogram shall be a fine of not more than one thousand dollars or imprisonment for not more than two years, or both, in the discretion of the court, for each and every such offense.

2. The Service Regulations of the International Radiotelegraphic Conventions provide that the call letters of stations in the international system must each be formed of a group of three letters which shall be distinguishable from one another. The London International Radiotelegraphic Conference made a partial allotment of all letters among nations which signed the convention and the International Bureau at Berne, with the consent of such nations, has modified and added to this assignment of call letters by circular of April 1, 1914. The distribution of call letters among nations thus authorized is printed below for the guidance of operators of all stations (ship and shore) of the United States.

.....All to Germany and protectorates.	CRA to CTZ...Portugal and colonies.
.....All to Great Britain.	CUA to CUZ...Not yet assigned.
AA to CEZ...Chile.	CVA to CVZ...Roumania.
FA to CMZ...Not yet assigned.	CWA to CWZ...Uruguay.
NA to CNZ...Morocco.	CXA to CZZ...Not yet assigned.
OA to COZ...Not yet assigned.	D.....All to Germany and protectorates.
PA to CPZ...Bolivia.	EAA to EGZ...Spain and colonies.
QA to CQZ...Monaco.	EHA to EZZ...Not yet assigned.

F.....All to France and colonies.	PNA to PZZ...Brazil.
G.....All to Great Britain.	Q.....Reserved for code abbreviations.
HAA to HFZ..Austria-Hungary and Bosnia-Herzegovina.	R.....All to Russia.
HGA to HHZ..Siam.	SAA to SMZ...Sweden.
HIA to HIZ..Dominican Republic.	SNA to STZ...Brazil.
HJA to HKZ..Colombia (Republic).	SUA to SUZ...Egypt.
HLA to HZZ...Not yet assigned.	SVA to SZZ...Greece.
I.....All to Italy and colonies.	TAA to TMZ...Turkey.
J.....All to Japan and possessions.	TNA to TZZ...Not yet assigned.
KAA to KCZ..Germany and protectorates.	UAA to UMZ..France and colonies.
KDA to KZZ..United States.	UNA to UZZ..Austria-Hungary and Bosnia-Herzegovina.
LAA to LHZ..Norway.	VAA to VGZ..Canada (British).
LIA to LRZ..Argentine Republic.	VHA to VKZ..Australian Federation (British).
LSA to LWZ...Not yet assigned.	VLA to VMZ..New Zealand (British).
LXA to LZZ..Bulgaria.	VNA to VNZ..South African Union (British).
M.....All to Great Britain.	VOA to VOZ..Newfoundland (British).
N.....All to the United States.	VPA to VSZ...British colonies not autonomous.
OAA to OFZ...Not yet assigned.	VTA to VWZ..British India.
OGA to OMZ..Austria-Hungary and Bosnia-Herzegovina.	VXA to VZZ..Great Britain.
ONA to OTZ...Belgium and colonies.	W.....All to the United States.
OUA to OZZ..Denmark.	XAA to XDZ..Mexico.
PAA to PIZ...Netherlands.	XEA to XZZ...Not yet assigned.
PJA to PJM...Curaçao (Dutch).	YAA to YZZ...Not yet assigned.
PJN to PJZ...Surinam (Dutch).	ZAA to ZZZ...Not yet assigned.
PKA to PMZ..Dutch East Indies.	

PUBLIC-SERVICE STATIONS.

3. The call letters assigned to the United States are all combinations (676) beginning with the letter N and all (676) beginning with the letter W, and all combinations (598) from KDA to KZZ, inclusive. The total number of international call letters assigned to the United States is thus 1,950, and these are reserved for Government stations and stations open to public and limited commercial service.

(a) All combinations beginning with the letter N are reserved for Government stations and in addition the combinations from WUA to WVZ and WXA to WZZ are reserved for stations of the Army of the United States.

(b) The combinations KDA to KZZ, with a few exceptions, are reserved for ship stations on the Atlantic and Gulf of Mexico and for land stations on the Pacific coast.

(c) The combinations beginning with W (except WUA to WVZ and WXA to WZZ as already indicated) are reserved, with a few exceptions, for ship stations on the Pacific and the Great Lakes and for land stations on the Atlantic and Gulf coasts and in the Great Lakes region.

AMATEUR STATIONS.

4. The call letters for amateur stations in the United States will be awarded by radio inspectors, each for his own district, according to the following system:

(a) The call will consist of three items—the number of the radio district, followed by two letters of the alphabet. Thus, the call of all amateur stations in New England (which comprises the first district) will be the figure “one” in Continental Morse, followed by two letters; in California (in the sixth district) the figure “six” followed by two letters; in South Carolina the figure “four” followed by two letters; in Missouri the figure “nine” followed by two letters, etc. The letters X, Y, Z, must not be used as the first of the two letters.

The territory of each district is as follows:

1. BOSTON, MASS.....Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut.
2. NEW YORK, N. Y.....New York (county of New York, Staten Island, Long Island, and counties on the Hudson River to and including Albany, Rensselaer, and Schenectady), and New Jersey (counties of Bergen, Passaic, Essex, Union, Middlesex, Monmouth, Hudson, and Ocean).
3. BALTIMORE, MD.....New Jersey (all counties not included in second district), Pennsylvania (counties of Philadelphia, Delaware, all counties south of the Blue Mountains, and Franklin County), Delaware, Maryland, Virginia, District of Columbia.
4. SAVANNAH, GA.....North Carolina, South Carolina, Georgia, Florida, Porto Rico.
5. NEW ORLEANS, LA....Alabama, Mississippi, Louisiana, Texas, Tennessee, Arkansas, Oklahoma, New Mexico.
6. SAN FRANCISCO, CAL...California, Hawaii, Nevada, Utah, Arizona.
7. SEATTLE, WASH.....Oregon, Washington, Alaska, Idaho, Montana, Wyoming.
8. CLEVELAND, OHIO.....New York (all counties not included in second district), Pennsylvania (all counties not included in third district), West Virginia, Ohio, Michigan (Lower Peninsula).
9. CHICAGO, ILL.....Indiana, Illinois, Wisconsin, Michigan (Upper Peninsula), Minnesota, Kentucky, Missouri, Kansas, Colorado, Iowa, Nebraska, South Dakota, North Dakota.

(b) The three items—a given figure first, followed by two letters of the alphabet—thus may be combined in 598 different calls, which will probably suffice for the amateur sending stations in most districts for some time to come.

(c) Radio inspectors will insert amateur station calls in station licenses according to this system, and will keep a permanent chart of 598 squares, lettered with the alphabet from left to right and from top to bottom (A to W), inserting in the appropriate square the serial license number and name of owner of the station to which the call letters were awarded. Within these limitations radio inspectors

will use their discretion in the award of calls, avoiding, of course, duplications.

(d) When a station is abandoned and the license canceled, or if a license shall be forfeited for violation of law, the call assigned to it may be allotted to another station.

(e) If the entire 598 calls have been exhausted, radio inspectors will issue additional calls, consisting of the figure of the district followed by three letters. From such combinations should be excluded the combinations SOS and PRB, all three-letter combinations beginning with QR or QS, all combinations involving the repetition of the same letter three times, three-letter combinations beginning with K, N, W, X, Y, Z, and other combinations, which, for various reasons, international, national, local, or individual, may be objectionable. With such exclusions, over 10,000 calls will remain for each district.

LIMITED COMMERCIAL STATIONS.

5. Calls for limited commercial land stations will be allotted by the Bureau of Navigation.

SPECIAL CLASSES OF STATIONS.

6. Calls for special classes of stations, such as experiment stations for the development of radio communications, technical and training school stations, and special amateur stations will be allotted by the Bureau of Navigation.

The call will consist of three items—the number of the radio district, followed by two letters of the alphabet. The first letter will be: X, for experiment stations; Y, technical and training schools; Z, special amateur stations.

Twenty-six different combinations for each class in each district, of course, are possible. If more should prove necessary for any class in any district, a third letter will be added to the call.

RADIO STATIONS OF THE WORLD.

The International List of Radio Stations of the World (edition in English) can be procured from the International Bureau of the Telegraphic Union (Radiotelegraphic Service), Berne, Switzerland.

In addition to the information contained in the pamphlet of the United States stations, published by the Bureau of Navigation, the international list shows geographical locations, normal ranges in nautical miles, radio systems, and rates.

The international list includes the Government and commercial land and ship stations of the United States. The list is divided into three parts. The first part contains a list of ship stations, grouped

by countries and arranged alphabetically; the second part contains a list of land stations arranged in the same manner; and the third part contains tables of land line and cable charges from coast radio stations to inland and various other points. In computing the total word rate applicable to a radiogram from a ship station to an inland point, or vice versa, the three rates must be added. The rates in the international list are given in francs, but may be converted into dollars and cents by multiplying by five. Supplements to the international list will be issued monthly, and will contain new stations and tables of alterations. A copy of the international list should be in every land and ship station open to commercial business as the official tariff book.

The International Alphabetical List of Call Letters (stations of the world) is also issued by the International Bureau at Berne, and supplements will be issued monthly.

Neither the international list nor the supplements will contain a list of amateur stations.

Inquiries as to the subscription prices of these lists should be made direct to the Berne bureau at the address given above. Remittances to Berne should be made by international postal money orders.

E. T. CHAMBERLAIN,
Commissioner of Navigation.

Approved:

WILLIAM C. REDFIELD,
Secretary.

PART I.

LAND RADIO STATIONS, ALPHABETICALLY BY NAMES OF STATIONS.

[This list includes commercial, special, Army, Navy, and all other land stations except restricted and general amateur. The special land stations are grouped at the end of this list.]

Station.	Call signal.	Wave lengths.	Service.	Hours of operation.	Station controlled by—
Annapolis, Md.	NAK	O	8 a. m. to 10 p. m.	U. S. Navy.
Arlington, Radio, Va.	NAA	O	N	U. S. Navy.
